

## **WHAT WE ASPIRE**

**The mission is clearly indicated in the school motto. "TO MOVE FROM DARKNESS OF IGNORANCE TOWARDS LIGHT OF KNOWLEDGE AND EXPERIENCE."**

In the changing times with a lot of exposure from the outside world, it has become difficult to bring the children up with values which have lost ground. The new values have to be inculcated in the new set up to make them bold enough to face the reality, the quality of being steadfast, to be able to cope up with the changing environment which Submit is our mission. Our next goal is to create thinking individuals. This is the prime need of the hour to bring back the glory of the past.

Ultimately we believe in one world, one nation theory. We believe in the philosophy of universal brotherhood so that ultimate peace may prevail in the society and all over the world.

This way we might be able to make a small contribution to preserve our planet- The Mother Earth.

Child Oriented: All the goals and the aspirations that we have are Child Oriented. We aspire that the children educated here are able to project and present themselves very successfully. We ensure that they imbibe the spirit of the traditions and culture of the country, and at the same time are so confident in their knowledge that they are able to walk with their heads held high.
